Judge Simpson

To the Honorable Chief Justice and Justices of the Supreme Court:

Submitted herewith is the Statistical Supplement to the Annual Report of the Administrative Director of the Courts for the court year September 1, 1978 through August 31, 1979.

This Statistical Supplement contains detailed statistical data on the operation of New Jersey's courts and is of particular value to the persons and agencies interested or involved in the operation, planning and budgeting of the judicial system.

The basic Annual Report, published in a separate volume, has statistical digests and photographic coverage as well as full narrative coverage of activities for this court year in addition to many summaries of accomplishments during the tenure of Chief Justice Richard J. Hughes from December 18, 1973 through August 9, 1979.

A separate publication, "Proceedings in the Municipal Courts," contains detailed statistical data on the work of New Jersey's 532 municipal courts and the County District Courts that exercise concurrent jurisdiction.

The extraordinary efforts of all who participated in the preparation of these Reports are gratefully acknowledged.

Respectfully submitted,

Dated: December 31, 1979

# of New Jersey

(JUSTICES, JUDGES AND JURISDICTIONS)

SUPREME COURT: Chief Justice and 6 Associate Justices. Initial term of 7 years with tenure on reappointment. Mandatory retirement at 70.

Final Appeal in:

1. Constitutional questions
2. Issues where dissent in Appellate Division
3. Capital causes
4. Certifications
5. In such causes as provided by law

SUPERIOR COURT: 236 Judges authorized. Term, tenure and retirement same as Supreme Court. (Tenured former County Court judges have tenure on the Superior Court, and former County Court judges not having tenure as of December 7, 1978 hold office for the unexpired portion of their terms and acquire tenure upon reappointment.)

APPELLATE DIVISION

Appeals from:

1. Law and Chancery Divisions
2. County District Courts
3. Juvenile & Domestic Relations Courts
4. State Administrative Agencies
5. Tax Court
6. As provided by law

LAW DIVISION

1. General jurisdiction in all causes, civil and criminal
2. Proceedings in lieu of prerogative writs, except review of state administrative agencies
3. Appeals from Municipal Courts and Wage Collection Section, Office of Wage and Hour Compliance
4. Probate

CHANCERY DIVISION

1. General equity
2. Matrimonial
3. Probate

COUNTY DISTRICT COURTS: 39 Judges authorized. Term: 5 years. Tenure after 10 years and third appointment. Mandatory retirement at 70.

1. Contract, penalty, and tort actions at $3,000
2. Landlord and tenant
3. Small claims at $500
4. Concurrent criminal and quasi-criminal jurisdiction with Municipal Courts
5. Bastardy and filiation proceedings
6. Actions by creditors against an estate up to $3,000
7. Up to $5,000 for disciplinary sanctions by professional and occupational boards of the Division of Consumer Affairs.

TAX COURT (Effective July 1, 1979): 12 Judges authorized. Term same as Supreme Court except for the 1979 appointments. Tenure and retirement same as Supreme Court. The Tax Court reviews the determinations of agencies and officials charged with administration of state and local taxes and in particular:

1. Local property and assessments
2. State tax assessments
3. Equalization tables promulgated by the director of the Division of Taxation or the County Boards of Taxation

JUVENILE AND DOMESTIC RELATIONS COURTS: 33 Judges authorized. Term: 5 years. Tenure after 10 years and third appointment. Mandatory retirement at 70.

1. Exclusive jurisdiction over juvenile delinquency* and "juveniles in need of supervision."
2. Child abuse matters
3. Support
4. Temporary custody of children
5. Bastardy and filiation proceedings

MUNICIPAL COURTS: 372 Judges. Term: 3 years.

1. Traffic and motor vehicle violations
2. Ordinance violations
3. Disorderly persons offenses
4. Fish and game and navigation violations
5. Bastardy and filiation proceedings
6. Other specified crimes (where penalty does not exceed 1 year incarceration or $1,000 fine) and offenses (where value of property does not exceed $500), including some crimes where indictment and trial by jury can be waived.
7. Probable cause hearings on indictable offenses.

SURROGATES' OFFICES: 21 Surrogates. Elected. Term: 5 years.

1. Uncontested probate matters
2. Deputy clerk of the Superior Court for probate matters

---

*"Juvenile delinquency" excludes violations of chapters 3, 4, 6 and 8 of Title 39 of the N.J. Statutes where juveniles are 17 years old.

DIGEST OF THE STATISTICAL DATA
ON CASELOAD ACTIVITY, 1978-79

Cases added to the calendars (excluding the municipal courts) reached an all-time high of 626,506, or 37,987 (6.5%) more than the 588,519 last year. Fortunately, cases disposed of also reached a record level of 618,969, an increase of 41,497 (7.2%) over the 577,472 in 1977-78. In addition to the fact that the average number of judges in office during the court year was 291.70, or 13.29 more than the 278.41 in the prior year, the judges increased the number of dispositions per judge to a record high of 2,122, up 48 cases per judge, or 2.3% over the prior year. Despite the increase in dispositions (in total, and also per judge), the record number of new cases added resulted in an all-time high of 186,182 cases pending at the end of the court year, up 7,537 (4.2%) over the prior year. However, this most recent data shows a slower rate of growth of the backlog. The increase between the 1976-77 and 1977-78 court years amounted to 6.3%. In addition, if all "viable" judicial vacancies were filled, the backlog could be gradually reduced to an acceptable level of "cases in process." In other words, case disposition time goals could be met without a qualitative reduction in judicial services, if a full bench were available to mount an assault on the increasing caseloads.

Statistical tables which follow in this report summarize caseload activity in each court for the 1978-79 year.

SUPREME COURT

Appeals pending at the end of the year in the Supreme Court were reduced from 151 to 122 despite the fact that the 214 appeals filed and certified were an increase of 21 over the prior court year. During the year the Supreme Court disposed of 243 appeals, 25 (11.5%) more than the previous year.

APPELLATE DIVISION OF THE SUPERIOR COURT

Appeals filed in the Appellate Division of the Superior Court (not including appeals certified by the Supreme Court before calendaring) decreased by 519 cases (9.8%) over the previous year to 4,774. Appellate Division judges disposed of 5,622 appeals (881, or 18.6% more than the prior court year). There were 5,322 appeals pending on August 31, 1979, or 848 (13.7%) less than the prior year.

LAW DIVISION, CIVIL

> As used here, a "case" is a complaint on which a first answer has been filed. R. 4:36-2. Consolidated cases are reported as separate complaints.

Law Division civil cases added to the calendars reached a record high of 44,688, an increase of 4,455 (11.1%) over the previous year. Notwithstanding a total of 41,353 dispositions, an increase of 3,686 (9.8%) over the prior year, cases pending increased 6.0% to an all-time high of 58,942. Active civil cases pending increased from 54,797 to 57,995, and on August 31, 1979, 50% of all active Law Division civil cases were over one year old, as compared with 51% one year ago. (Age is computed from date of complaint or restoration of a case to the calendars.)

LAW DIVISION, CRIMINAL

> The word "case" refers to the unit of the count which is the indictment or accusation, irrespective of the number of persons or charges. For the purpose of this report, an indictment or accusation is disposed of by verdict, dismissal (vacated or not prosecuted), motions for judgment of acquittal granted, etc., when every charge has been disposed of on every person named therein, even though the sentence is pending.

Criminal cases (indictments and accusations) filed totaled 22,198 during the year, an 8.7% decrease from the previous year. The total number of cases disposed of during the year increased by 1,330 (5.8%) to 24,256, leaving 29,392 cases pending at the close of the year, of which 26% were over one year old, an improvement from last year's 27%.

CHANCERY DIVISION, GENERAL EQUITY

"Cases" are complaints on which first answers have been filed, R. 4:36-2 and contested foreclosures. Uncontested foreclosures, escheats, and receiverships are not included. Consolidated cases are reported as separate complaints.

General Equity cases added to the calendars increased by 7.3% to 4,318 during the year, and dispositions increased by 305 cases (8.2%) to 4,009. Cases pending increased to 3,129 or by 11.0%. The percentage of active General Equity cases pending over one year old increased from 15% to 19% during the year.

CHANCERY DIVISION, MATRIMONIAL

A "case" is added to the calendar only after compliance with R. 4:79-2 (Trial Fees) and, if applicable, R. 4:79-11 (Listing for Trial; Claims for Equitable Distribution of Property). R. 4:36-2.

The situation as to the age of active pending cases has improved markedly. On August 31, 1979, 23% were over one year old, as compared with 33% at the end of the prior court year. The 7,312 cases pending at the end of the year was a decrease of 666, or 8.3%. Matrimonial cases added decreased to 25,609, down 1,762 (6.4%) from the prior court year. There were 26,275 dispositions, down 208 (0.8%) from last year.

APPEALS FROM THE MUNICIPAL COURTS

These appeals include criminal and quasi-criminal appeals such as bastardy, traffic, violation of municipal ordinances and disorderly persons offenses tried initially in the Municipal Courts and the County District Courts.

Cases added increased by 9.0% from 2,554 to 2,784 and dispositions also increased from 2,486 to 2,699 or 213 appeals (8.6%). The 739 appeals from the municipal courts pending at the end of the year represent a 13.0% increase from one year ago.

JUVENILE

The unit of the count is the complaint. Ordinarily only one juvenile is named on each complaint; however, there may be several complaints against one juvenile.

JUVENILE DELINQUENCY

Complaints filed, disposed of and pending increased to record highs during 1978-79. Filings increased by 15,283, or 18.7%, to a total of 97,110. Dispositions reached 96,750, or 20.4%, over last year and there were 14,201 cases pending at the close of the year. These substantial increases in juvenile delinquency complaints disposed of in court by the judges have occurred above and beyond the matters processed by the Juvenile Intake Units. During 1978-79 there were 35,810 complaints diverted from the courts; 21,906 to Intake Conferences and 13,904 to the Juvenile Conference Committees.

JUVENILES IN NEED OF SUPERVISION

There were 11,555 complaints filed, 11,764 dispositions, both record highs. The 926 JINS matters pending is a decrease of 209, or 18.4%, from last year. As with the juvenile delinquency complaints, a greater proportion of JINS complaints were referred to Juvenile Intake Units as the number of counties with these programs increased. All of New Jersey's 21 counties now have operational intake programs. Sussex County's was implemented in September 1978 and Hunterdon County's in November 1978. During 1978-79, a total of 5,049 JINS complaints were diverted from the courts; 4,455 to the Intake Conferences and 594 to the Juvenile Conference Committees.

DOMESTIC RELATIONS AND RECIPROCAL SUPPORT COMPLAINTS

Data includes cases initiated in New Jersey and complaints received from other states under reciprocal support agreements.

The number of complaints filed increased by 10.1% to a record 80,878 this year. Complaints disposed of also reached an all-time high of 80,619 (11.4% increase), leaving 7,294 cases pending at the close of the year. Despite the record number of dispositions, the cases pending represent a 3.7% increase over the end of the prior year.

COUNTY DISTRICT COURTS

The unit of the count is the complaint. Consolidated cases are reported according to the number of complaints. A complaint is reported as active pending even if summons thereon has not been served.

Complaints added and disposed of were reported in record numbers as 331,672 were filed and 324,656 were disposed of. The 58,520 cases pending represent a 13.6% increase over the prior year; however, cases over six months old decreased from 13% to 12%.

TAX COURT OF NEW JERSEY

Effective July 1, 1979, the Tax Court of New Jersey was created as a part of the New Jersey judicial system to succeed jurisdiction of the Division of Tax Appeals, an administrative agency in the Department of the Treasury. The Tax Court provides for review of tax assessments and actions of all the State and local taxing agencies of the State by full-time judges who are specialists in the tax field. At its inception on July 1, 1979, there were transferred to the Tax Court approximately 25,000 local property tax cases and approximately 2,300 State tax cases. It is estimated that approximately 8,000 new cases will be added in the court year 1979-80. Based upon current projections the Tax Court will eliminate the excessive backlog of cases in one or two years.

THE MUNICIPAL COURTS

On August 31, 1979, there were 532 municipal courts, including 16 joint municipal courts serving forty-seven municipalities. The municipal courts were presided over by 367 judges, who reported spending 110,723 hours on bench hearing all types of cases, an increase of 2,470 hours from the prior court year.

A total of 4,300,253 complaints were filed, an increase of 4.8%. The filings included 2,677,108 parking complaints, 1,257,601 non-parking traffic ("moving") complaints and 365,544 non-traffic complaints which included indictable matters to be referred to the grand juries or heard on waiver under N.J.S.A. 2A: 8-22, disorderly persons, local ordinance, fish and game and navigation complaints. The 365,544 non-traffic ("criminal") complaints filed is an increase of 16,378 (4.7%) over the prior court year. Of the total 3,412,597 dispositions, excluding cases referred to the county prosecutors and other courts and the traffic cases closed for failure to appear, the violations bureaus disposed of 94.2% of the parking complaints, 67.5% of the non-parking traffic complaints and 9.5% of the non-traffic ("criminal") complaints.

There were 70,060 complaints referred by the municipal courts to the county prosecutors for the action of the grand juries, an increase of 4,957 (7.6%) from 1977-78. An additional 4,467 complaints were referred to the juvenile and domestic relations courts or other municipal courts. In addition to the formal complaints, there were 6,247 Notices in Lieu of Complaints heard under Rule 7:3-2.

The number of defendants sentenced to jail increased by 1,317 or 12.4%, from 10,610 to 11,927. The number of persons placed on probation increased by 377 (4.8%) from 7,905 to 8,282. The judges revoked 26,550 motor vehicle drivers' licenses, an increase of 2,643 (11.1%) over the prior court year.

Of the 381,245 non-parking traffic cases heard in court, 67,726 or 17.8% resulted in dismissals or findings of not guilty, matching last year's 17.8%.

There were 38,121 non-parking traffic, 38,807 parking and 4,371 non-traffic ("criminal") complaints filed in the five county district courts which exercised concurrent jurisdiction with the municipal courts: Bergen, Hudson, Ocean, Sussex and Warren Counties. Most of these matters were in Bergen and Hudson Counties.

The municipal courts and the county district courts that exercised concurrent jurisdiction imposed fines, costs and bail forfeitures totaling $61,081,542, an increase of $7,720,915 (14.5%) over 1977-78. Of this amount, $1,558,838 (approximately 2.6%) was imposed in the county district courts that exercised concurrent jurisdiction.

Expenditures by the municipalities for the municipal courts during the calendar year 1978 included $3,672,833 for judges' salaries, $10,884,696 for other salaries and $2,253,459 for other expenses. The total expenditures of $16,810,988 represent an increase of $143,879, or 0.86%, from the $16,667,109 in 1977.

TOTAL MUNICIPAL COURTS COMPLAINTS DISPOSED OF	3,412,597	3,298,143	+ 114,454	+ 3.5%

1/ Data on "Cases Pending" as of August 31, 1978 differs from the data published in the Annual Report for 1977-78 because of changes due to physical inventories and recounts in the counties during 1979.

2/ There were 12 appeals certified during 1978-79 and 13 appeals during 1977-78. The number of appeals certified from the Appellate Division before calendaring may not agree with the number of certifications received by the Supreme Court due to variances in case classification and docketing procedures.

3/ Does not include data for the New Jersey Tax Court which was instituted effective 7/1/79.

** Includes matters instituted in the County Court prior to the Amendment to the New Jersey Constitution effective 12/7/78, as well as matters instituted in the Superior Court.

*Includes small number of cases transferred from the District Court.

**Weighted cases are computed by dividing the number of judge hours on the bench and in settlement conference by the total number of cases disposed of. The result is the average number of judge hours needed to dispose of the cases. Weights were computed on the basis of hours and dispositions during the year ending August 31, 1978.

***Official State estimates by the Office of Demographic & Economic Analysis, N.J. Department of Labor and Industry. (Provisional estimates published and certified 6/1/79.) Note: State estimates are shown to nearest thousand, county estimates to nearest hundred.

*Weighted cases are computed by dividing the number of judge hours on the bench and in settlement conference by the total number of cases disposed of. The result is the average number of judge hours needed to dispose of the cases. Weights were computed on the basis of hours and dispositions during the year ending August 31, 1979.

**Law Civil, Criminal, General Equity, Matrimonial and County District Court over 1 year, J.&D.R. over 3 months.

***Official State estimates by the Office of Demographic & Economic Analysis, N.J. Department of Labor and Industry. (Provisional estimates published and certified 6/1/79.) Note: State estimates are shown to nearest thousand, county estimates to nearest hundred.

STATISTICAL TABLES PREPARED BY THE
CENTRAL APPELLATE RESEARCH STAFF
SEPTEMBER 1, 1978 to AUGUST 31, 1979

B

BEST AVAILABLE COPY

The primary function of the Central Appellate Research Staff is the preparation of in-depth legal memoranda on cases of intermediate complexity pending before the Appellate Division of the Superior Court. The objective is to provide the court with pre-decisional research which will be of assistance in the ultimate disposition of the appeals. As an adjunct to the research function the Staff collects and compiles statistical data related to the intermediate appellate process in New Jersey. The following tables represent the data collected for the 1978-1979 court year. They provide a wealth of information concerning the intermediate appellate court but no attempt will be made here to comment on the information beyond that which is necessary to explain or illustrate the purposes of the various tables.

For those who may be interested in comparing the information contained in these tables with the information compiled by the staff in prior years, it should be noted that Tables 3, 5 and 6 have again been eliminated. These tables last appeared in the 1973-74 report but thereafter it was determined that the relatively limited information provided by these tables did not justify the time and effort expended in collecting and compiling the data. The remaining tables have not been renumbered, so comparison with prior reporting periods can be easily achieved.

Table 1 shows the time intervals from the point of an appealable decision, through the various stages of the intermediate appellate process and ultimately to decision by the Appellate Division. This year the time lapse intervals have been calculated upon the 3,427 appeals decided by the Appellate Division during the 1978-79 court year. Within Table 1 the cases are broken down into the categories of civil and criminal. "Quasi-criminal" matters such as disorderly persons offenses have been placed into the criminal category. Juvenile cases, being neither civil nor criminal, have been classified as criminal. Prior to the 1976-77 court year juvenile cases had been classified as civil. The change was made in an effort to keep in step with the tenor of the times. Table 1 is also broken down into appeals which were accompanied by a memorandum from the Central Appellate Research Staff ("Staff Processed") and those which were not. In using this table (as well as Tables 1A and 2) it is suggested that the median is probably the most meaningful measure of central tendency ("average").

Table 1A is a further breakdown of criminal cases in an effort to provide a significant comparison between the time lapse in staff-processed cases and non staff-processed cases. The middle column represents those appeals where the only issue raised was that the sentence imposed was excessive. Because of the relative ease with which these cases can be decided they are never accompanied by a staff memorandum.

Thus, Table 1A permits elimination of these cases when comparing staff-processed criminal appeals and non staff-processed criminal appeals.

Table 2 is essentially a further breakdown of one aspect of the time lapse between appealable decision and the opinion rendered by the Appellate Division. It sets out data on motions made to the Appellate Division for extensions of time in relation to the filing of briefs. Under the Rules Governing the Courts of the State of New Jersey an appellant has a 45 day period within which to file a brief, and once filed a respondent has 30 days to file an answering brief. R.2:6-11. Table 2 shows extensions granted to permit filing beyond the time limits specified in the rule. In certain appeals extensions are granted to both the appellant and the respondent or more than one extension may have been granted to either side. Therefore, although the Appellate Division granted a total of 1,672 extensions those occurred in only 1,171 appeals. All percentages relate to the 1,171 appeals where extensions were granted rather than to all appeals decided during the court year.

Table 4 is a breakdown of the types of cases which are appealed. It sets out the number of cases, the number of reversals and the number of affirmances in each of the 19 generic categories. The figures are also provided on a percentage basis with the "percent of total" relating to all appeals decided during the court year (3,427) and the other percentage calculations relating only to the specific category. The term "reversed," as used in this table, includes not only those appeals where the entire judgment was reversed but also those appeals where a judgment was modified, vacated or reversed only in part. This is done in an effort to reflect more accurately the instances where appellants were successful, although perhaps not on every issue raised.

It should be noted that in the 1974-75 report the category "Criminal Guilty Plea" contained only the appeals where the sole issue raised was the validity of the plea itself. The category was expanded starting with the 1975-76 report to include all appeals from guilty pleas regardless of the type or number of issues raised, the sole exception being appeals from guilty pleas where the only issue presented was a claim of excessive sentence. The latter type of appeal is currently contained in the category "Criminal Sentence Review Only."

Table 7 is a compilation of the issues raised on appeal in all cases decided by the Appellate Division during the court year. It shows not only the number of times a specific issue has been raised, but also the number of times any given issue was successful on appeal.

The second column from the left reflects the percentage computation of the number of times a specific issue was raised in the 3,427 appeals decided during the court year. For example, in 30.67 percent of all appeals decided, the appellants argued that the trial judges' or agencies' findings of fact were erroneous, inadequate or not supported by the evidence.

The fourth column from the left, on the other hand, is a percentage calculation of the number of times an issue was successful as against the number of times it was raised. Using the same example the table shows that the argument concerning the fact finding of the judge or agency succeeded 144 times although raised 1,051 times, for a "success rate" of 13.70 percent.

A word of caution is appropriate concerning any conclusions that might be drawn from the figures in the third and fourth columns. In some instances the Appellate Division will reverse a judgment based upon an issue not specifically raised. This reason for reversal is reflected in the third and fourth columns but not in the first column because the issue causing reversal was not specifically advanced by the appellant. In the vast majority of categories this variation will produce only a slight change in the statistics and the fourth column will give a reasonably accurate percentage in reference to the first column. In a few categories, however, this form of variation may be the reason for what appears to be an inordinately high percentage in the fourth column. See *e.g.*, "Plenary Hearing Needed."

Table 8 is a tabulation of the Central Appellate Research Staff's production over the 12 month period. It shows the cases worked on by the Staff during the 1978-79 court year, although not every case worked on was decided by the court during the same court year. In all probability, the cases prepared in June, July and August were not decided by the court until sometime during the 1979-80 court year. The major month-to-month fluctuations generally reflect variations in the number of attorneys on staff. During the 1978-79 court year the staff worked on 708 appeals.

3,427 appeals decided by
written opinion

* The great percentage of foreclosure cases are uncontested and are processed by the Superior Court Clerk without being added to the calendar.

** The Calendar is the list of cases which have reached issue. A case is added to the calendar when the first answer is filed.

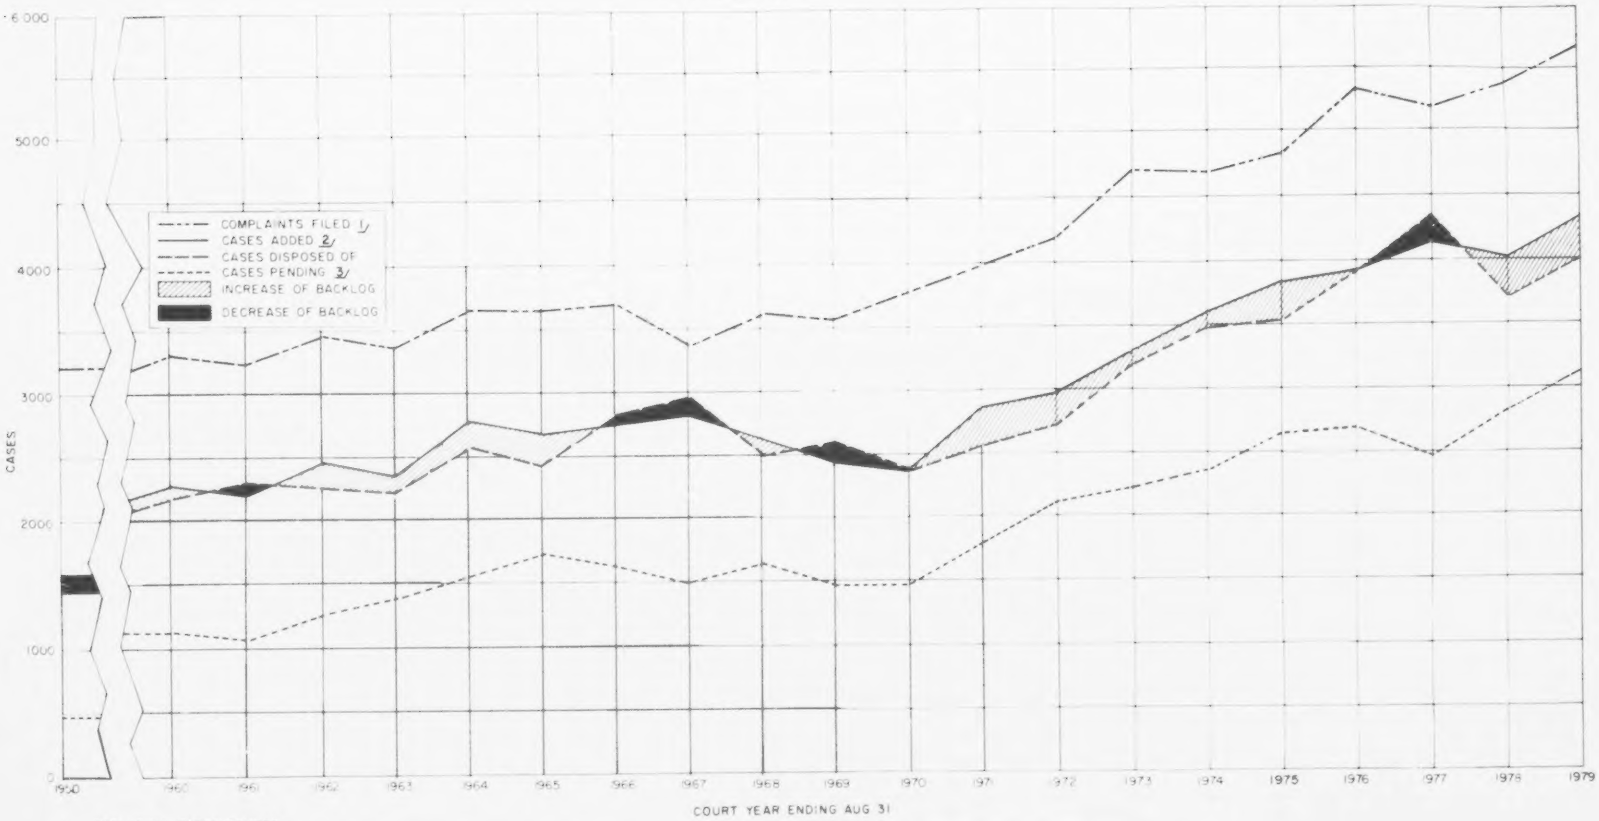
*** Data differs from cases pending August 31, 1978 as reported in 1977-78 Annual Report, because of transfers & recounts by the counties resulting from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

**** As reported in the 1977-78 Annual Report. Subsequent recounts amounted to +15 cases pending as of August 31, 1978.

SOURCE: Monthly Reports of the Judges.

SUPERIOR COURT - GENERAL EQUITY

COURT YEARS ENDING AUGUST 31,
1960 TO DATE COMPARED WITH 1950



1/ EXCLUDING FORECLOSURES.

2/ A CASE IS ADDED TO THE CALENDAR WHEN THE FIRST ANSWER IS FILED UNCONTESTED FORECLOSURES, ESCHEATS AND RECEIVERSHIPS ARE NOT INCLUDED

3/ AS REPORTED IN ANNUAL REPORTS FOR EACH COURT YEAR NOT CHANGED FOR "RECOUNTS" AS A RESULT OF PHYSICAL INVENTORIES IN THE COUNTIES.

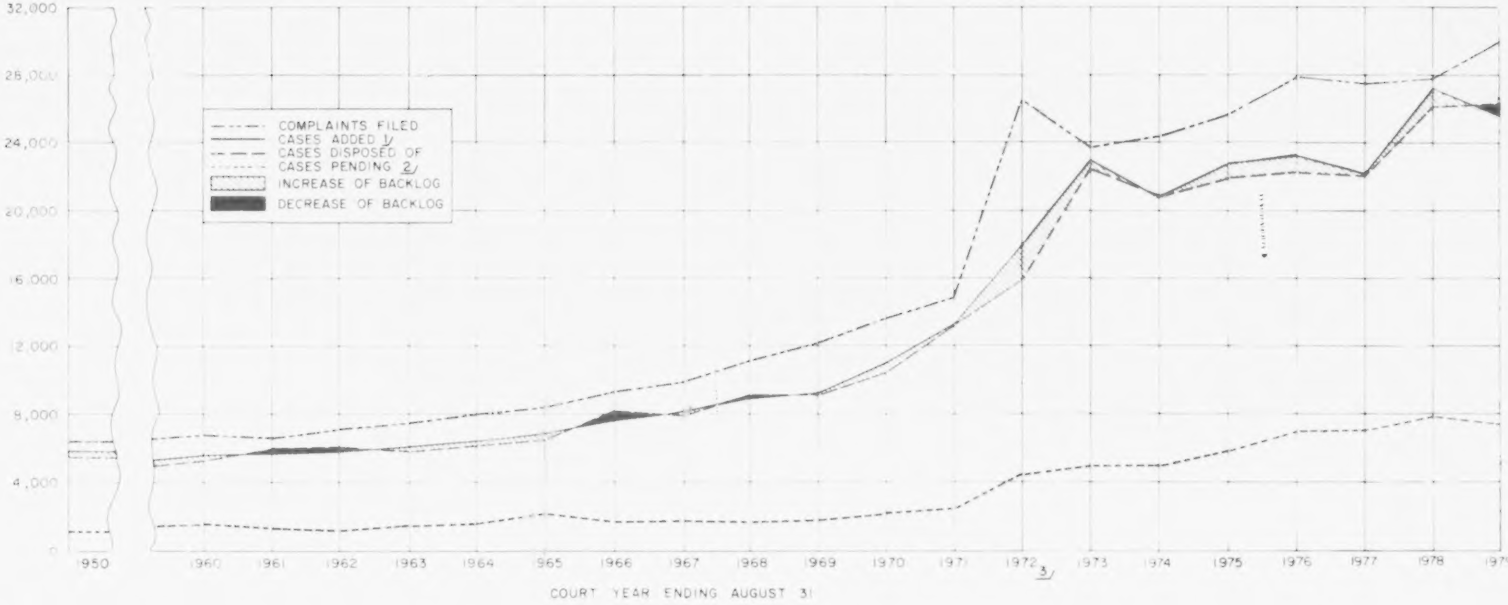
SUPERIOR COURT–MATRIMONIAL

COURT YEARS ENDING AUGUST 31
1960 TO DATE COMPARED WITH 1950



1/ MATRIMONIAL CASES ARE ADDED TO THE CALENDAR WHEN NOTICE OF APPROVAL FOR TRIAL UNDER R 4:79-2 HAS BEEN RECEIVED, R 4:36-2.

2/ AS REPORTED IN ANNUAL REPORTS FOR EACH COURT YEAR. NOT CHANGED FOR "RECOUNTS" AS A RESULT OF PHYSICAL INVENTORIES IN THE COUNTIES.

3/ THE SHARP INCREASE IN THE MATRIMONIAL CASE LOAD IN 1972 IS LARGELY ATTRIBUTABLE TO THE ENACTMENT OF NEW DIVORCE LAWS EFFECTIVE SEPTEMBER 13, 1971.

SUPERIOR COURT, CHANCERY DIVISION

MATRIMONIAL

DISPOSITION OF CASES BY COUNTY

September 1, 1978 to August 31, 1979

County	Complaints Filed	Total Cases On Calendar * at Beginning of Period **	Cases Added to Calendar *	Cases Disposed of	Total Cases on Calendar * at End of Period
Atlantic	781	253	586	540	299
Bergen	2,960	1,152	2,821	3,152	821

Union	1,987	441	1,851	1,920	372
Warren	424	64	339	331	72
TOTAL	29,973	** 7,978	25,609	26,275	7,312
TOTAL 1 *** YEAR AGO	27,669	6,961	27,371	26,483	*** 7,849

* A case is added to the calendar only after compliance with R.4:79-2 (Trial Fees) and, if applicable, R.4:79-11 (Listing for Trial; Claims for Equitable Distribution of Property). R. 4:36-2.

** Data differs from cases pending August 31, 1978 as reported in 1977-78 Annual Report, because of transfers among counties and recounts by the counties from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

*** As reported in the 1977-78 Annual Report. Subsequent recounts amounted to +129 cases pending as of August 31, 1978.

* Includes civil matters instituted in the County Court, Law Division, prior to the Amendment to the Constitution effective December 7, 1978, as well as civil matters instituted in the Superior Court, Law Division.

** Data differs from cases pending August 31, 1978 as reported in the 1977-78 Annual Report, because of recounts by the counties resulting from their periodic inventories and the discovery of other reporting errors by the counties during the course of the year.

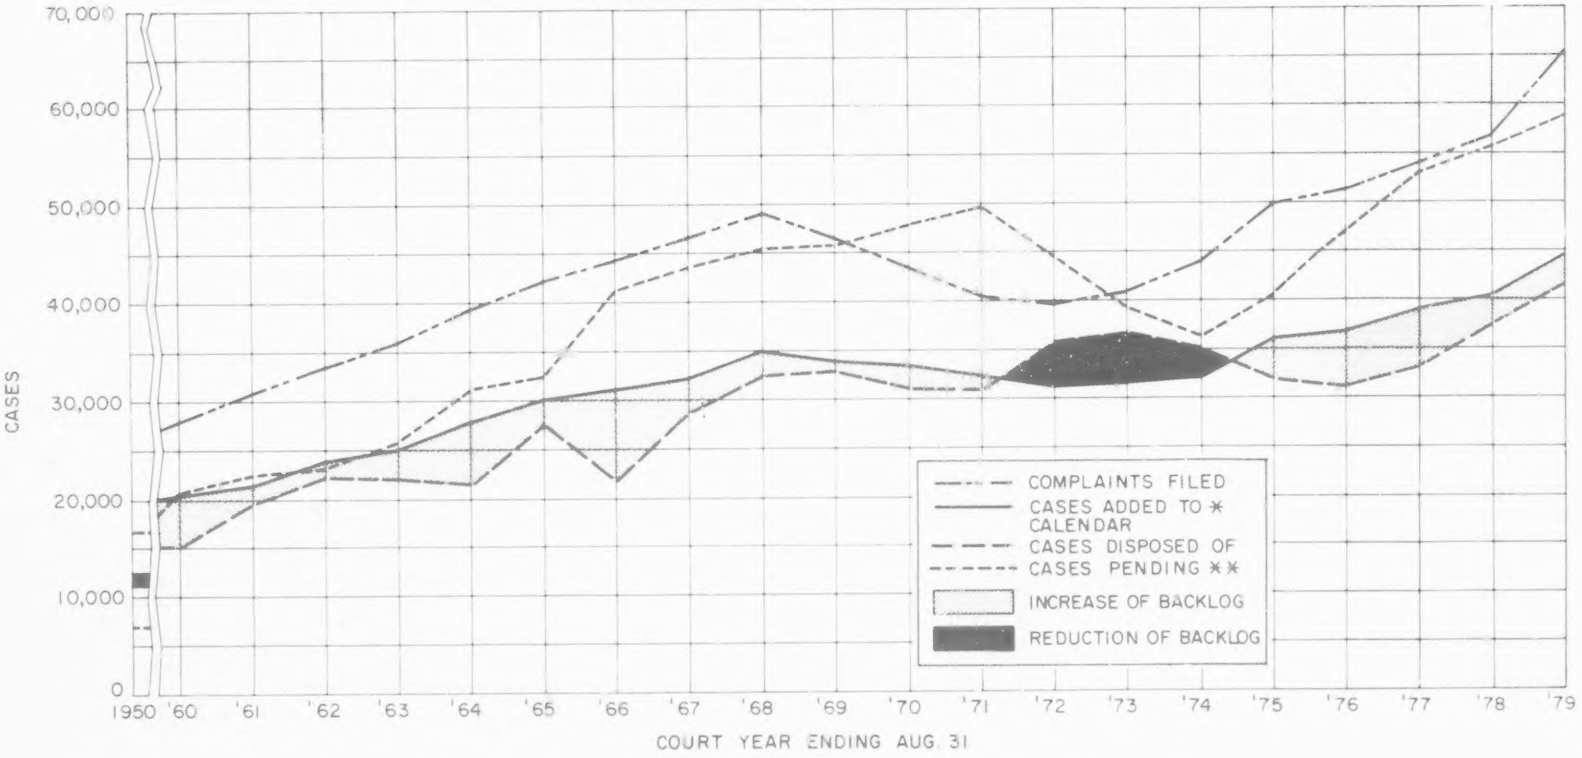
*** As reported in the 1977-78 Annual Report. Subsequent recounts amounted to [illegible] cases pending as of 8-31-78.

1/ The calendar is the list of cases which have reached issue. A case is added to the calendar when the first answer is filed, [illegible]

SOURCE: Monthly reports of the County Clerks and annual data from the Clerk of the Superior Court.

SUPERIOR COURT, LAW DIVISION 1/
COMBINED CIVIL LIST

COURT YEARS ENDING AUGUST 31,
1960 TO DATE COMPARED WITH 1950



* A CASE IS ADDED TO THE CALENDAR UPON THE FILING OF THE FIRST ANSWER, RULE 4:36-2.

** AS REPORTED IN ANNUAL REPORTS FOR EACH COURT YEAR. NOT CHANGED FOR "RECOUNTS" AS A RESULT OF PHYSICAL INVENTORIES IN THE COUNTIES.

1/ Includes civil matters instituted in the County Court, Law Division, prior to the Amendment to the Constitution effective December 7, 1978, as well as civil matters instituted in the Superior Court, Law Division.

SUPERIOR COURT, LAW DIVISION*

* Information from different counties was not uniformly reported as to whether the defendant was in jail awaiting plea or trial or in jail on another conviction.

** As to population, 1970 U.S. Census: Bergen, Camden, Essex, Hudson, Middlesex, Monmouth, Passaic, Union. Also coincides with estimated population, 7/1/78, official State estimates by Office of Business Economics, N.J. Department of Labor & Industry. (**Provisional** estimates published and certified **June 1**, 1979.)

NOTE: When "None" is used in place of the range, there is either a single case (time interval) in that category or 2 or more cases with the same time interval.

* Information from different counties was not uniformly reported as to whether the defendant was in jail awaiting plea or trial or in jail on another conviction.

** As to population, 1970 U.S. Census: Bergen, Camden, Essex, Hudson, Middlesex, Monmouth, Passaic, Union. Also coincides with estimated population, 7/1/78, official State estimates by Office of Business Economics, N.J. Department of Labor & Industry. (Provisional estimates published and certified June 1, 1979.)

NOTE: When "None" is used in place of the range, there is either a single case (time interval) in that category or two or more cases with the same time interval.

* Information from different counties was not uniformly reported as to whether the defendant was in jail awaiting plea or trial or in jail on another conviction.

** As to population, 1970 U.S. Census: Bergen, Camden, Essex, Hudson, Middlesex, Monmouth, Passaic, Union. Also coincides with estimated population, 7/1/78, official State estimates by Office of Business Economics, N.J. Department of Labor & Industry. (Provisional estimates published and certified June 1, 1979.)

NOTE: When "None" is used in place of the range, there is either a single case (time interval) in that category or two or more cases with the same time interval.

TOTAL 1 ** YEAR AGO	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	141	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	** [illegible]

1/ For the purpose of this page, each defendant named on each indictment is counted as a separate case. For example, if A and B are indicted in one indictment containing five counts against each defendant, there are two cases: one against A and one against B. If A is indicted on four indictments, there are four cases against A. In other words, each indictment against each defendant constitutes a separate case.

2/ A case is considered disposed of by non-jury if the opening is started or, if the opening is waived, the first witness is sworn.

3/ Inactive cases are those so marked by order of the court as untriable for reasons beyond the control of the court or prosecutor, included are fugitives, [illegible], defendants incarcerated in another state, etc.

* Data differs from cases pending August 31, 1978 as reported in the 1977-78 Annual Report, because of recounts by the counties resulting from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

** As reported in the 1977-78 Annual Report. Subsequent recounts amounted to [illegible] cases pending as of [illegible].

1/ A case is considered disposed of by jury trial if the drawing of the jury is started, even if thereafter the defendant pleads or the case is dismissed.

2/ A case is considered disposed of by non-jury trial if the opening is started or, if the opening is waived, the first witness is sworn.

NOTE: For purposes of this report, the charges embodied against each defendant on each indictment or accusation are considered a separate case, for example, (a) if A and B are indicated in one indictment containing five counts against each defendant there are two separate cases--one against A and one against B. If A is indicted on four indictments, there are four cases pending against A. In other words, each indictment against each defendant constitutes a separate case.

1. For the purpose of this page, each defendant named in each indictment is counted as a separate case. For example, if A and B are indicted in one indictment containing five counts against each defendant, there are two cases: one against A and one against B. If A is indicted in four indictments, there are four cases against A. In other words, each indictment against each defendant constitutes a separate case.

* Inactive cases are those so marked by order of the Court as untriable for reasons beyond the control of the court or prosecutor. Included are fugitives, John Does, defendants incarcerated in another State, etc.

** As reported in the 1977-78 Annual Report. Subsequent revisions by the counties amounted to [illegible] cases pending as of [illegible].

* Data differs from cases pending August 31, 1978 as reported in 1977-78 Annual Report, because of recounts by the counties resulting from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

** As reported in the 1977-78 Annual Report. Subsequent recounts amounted to +29 cases pending as of 8/31/78.

JUVENILE SCHOOL STATISTICS PROJECT

This project began on September 1, 1977 at the direction of former Chief Justice Richard J. Hughes. On that date, county juvenile intake units and probation departments began to collect data as to the New Jersey primary and secondary level schools attended by juveniles charged with delinquency and juveniles alleged to be in need of supervision (JINS). The following data collection procedures were employed in each county during the 1978-1979 court term:

1. An intake officer or juvenile probation officer reviews each juvenile delinquency or JINS complaint to ascertain the juvenile delinquency charges or JINS allegations against the juvenile and the New Jersey primary or secondary level school (if any) and grade attended by the juvenile. If this school related information is not set forth on the juvenile complaint form the intake officer or probation officer obtains that information from the juvenile involved or his parents or custodian. For purposes of this project, a juvenile is not considered to be a student of a New Jersey primary or secondary level school if he had graduated from high school, has been expelled or has withdrawn from school or attends school outside this State.

2. Each month the county intake unit or probation department through the Trial Court Administrator's Office, sends to the Administrative Office of the Courts a report containing "by grade", "by school", and "by offense type" data with respect to charges and allegations contained in juvenile delinquency and JINS complaints filed that month.

3. The Administrative Office of the Courts reviews the monthly county reports to assure that they are complete and internally consistent. Computer-generated reports are then forwarded to the New Jersey Department of Education and State Law Enforcement Planning Agency where they are used for planning and program evaluation purposes.

Following below are computer-generated county and State reports for the period September 1, 1978 through August 31, 1979. Grade numbers appear across the top and offense types appear along the left-hand margin of each report. For example, the Atlantic County report reveals that during the period September 1, 1978 through August 31, 1979 there were two charges of forcible rape filed against fifth graders attending school in that county. Data arranged by school and school district is available without charge upon written request to Steven Yoslov, Chief, Juvenile and Domestic Relations Court Services, Administrative Office of the Courts, CN 037, State House Annex, Trenton, New Jersey 08625.

A certain degree of caution is needed when using the data collected by the Administrative Office of the Courts. For example, if an offense is committed but the police cannot ascertain who committed the offense, the police will not file a complaint. Furthermore, on occasion the police may take a juvenile into custody and refer the juvenile to a social service agency without filing a complaint against the juvenile. Since the data collected by the Administrative Office is culled only from complaints filed with the juvenile court against juveniles attending New Jersey primary and secondary level schools, the data understates the extent of juvenile delinquency and the number of JINS. On the other hand, some juvenile delinquency complaints are eventually dismissed by the juvenile court because of a lack of proof. One who uses the data must also understand that it reflects the number of juvenile delinquency charges or JINS allegations filed against juveniles attending New Jersey primary and secondary level schools and not the number of complaints filed against such juveniles or the number of such juveniles. Finally, the data below do not represent charges in complaints which are filed with the court clerk and had not been referred to intake for screening, complaints reinstated by the juvenile court, nor juvenile delinquency complaints which the juvenile court judge downgrades to juvenile in need of supervision complaints.

JUVENILE AND DOMESTIC RELATIONS COURT INTAKE SERVICES

Statewide operations of juvenile and domestic relations court intake services are governed by the Supreme Court-approved Operations and Procedures Manual for Juvenile and Domestic Relations Court Intake Services (promulgated July 8, 1977). The Manual authorizes the intake service concept and takes cognizance of the fact that "the uniform and orderly development of juvenile and domestic relations court intake services...will assist the Supreme Court in the development of a Family Court, as a component of a unified and State-funded judicial system." The Manual requires that each county establish an intake service by September, 1978, and that each intake service operate in compliance with its provisions.

During the 1978-1979 court term, the number of operational intake services increased from 19 to 21 as Sussex County implemented an intake service in September, 1978, and Hunterdon County implemented an intake service in November, 1978. Implementation in these two counties fulfilled the mandate that there be an intake service in every county, and all twenty-one counties provide both juvenile and domestic relations intake.

The implementation of statewide intake services during the 1978-79 court term was aided by training for intake service personnel. This training, held in July, 1979, involved four one-day sessions in intake procedures and was attended by intake personnel from Burlington, Cape May, Cumberland, Essex, Gloucester, Middlesex, and Passaic counties.

Each intake service, which is staffed by trained probation officers and persons with particular expertise and/or experience from outside the probation service, serves as an arm of the Juvenile and Domestic Relations Court and acts on its behalf. Intake is responsible for monitoring admissions of juveniles to detention and shelter care facilities on a 24-hour-a-day, 7-day-a-week basis; screening complaints filed with the Juvenile and Domestic Relations Court; recommending the court calendar (counsel mandatory, counsel not mandatory) for those cases which are not diverted, transferred to another county or in which juvenile court jurisdiction is waived; recommending diversion through intake conferences or to juvenile conference committees and holding consent conferences in domestic relations cases.

Although the intake services provide administrative assistance to the Juvenile and Domestic Relations Courts, they are designed to divert from the juvenile court those first and minor juvenile offenders who do not require a court hearing but who may be in need of professional social services available in the community. Additionally, intake's monitoring of admissions to detention and shelter care facilities insures that such admissions are made pursuant to the Rules of Court and applicable statutes. Domestic relations intake enables all domestic relations complaints to be scheduled for consent conferences.

A juvenile complaint that comes to the attention of the Juvenile and Domestic Relations Court is screened by the intake service, which determines whether the offense alleged is serious enough to warrant a court hearing. This screening process requires the examination of existing court and probation records, as well as a discussion of the situation with the arresting officer or complaining witness. Subsequent to the screening process, first and minor offenders against whom allegations of delinquency have been made may be diverted from court and referred to a juvenile conference committee, which consists of representatives of various community groups appointed by the court to serve as an arm of the court in hearing juvenile cases. Juveniles alleged to be in need of supervision may be diverted through an intake conference, an informal session conducted by intake service staff and designed to counsel the juvenile and to direct the juvenile and his/her family to the appropriate service agency in the community. Most juveniles alleged to have committed a second minor offense are similarly diverted from court through the intake conference procedure.

Juvenile diversion alternatives enable first and minor offenders to avoid a court appearance and possible adjudication. These alternatives also provide Juvenile and Domestic Relations Court judges with more courtroom time to hear cases involving serious offenders, disputed or involved fact patterns or serious psychological and emotional problems.

Domestic relations complaints are similarly screened by the intake service and scheduled for a consent conference. These conferences, similar to an intake conference, are designed to resolve domestic relations disputes informally, without a court hearing. Where no resolution can be effected, the conferences assist the court in determining the amount of support payments and, when appropriate, making referrals to service agencies.

The following tables provide statistical information regarding intake service activities.

Source: Juvenile and Domestic Relations Court Services - Monthly Intake Reports. Counties represented are those where both juvenile and domestic relations intake are supervised by one intake coordinator.

* Statistical information in this table represents complaints that were disposed of during the court year. Some of these complaints were filed during 1977-78 court year. Note that intake in Passaic County began in March, 1979.

** Percentage Diverted is derived from the total of Consent Agreement, Dismissals and Continued divided by Complaints Received.

RESTITUTION BY JUVENILE OFFENDERS:
An Alternative to Incarceration

The concept of restitution by a juvenile offender was approved by the Supreme Court in State in the Interest of D.G.W., 70 N.J. 488 (1976) and is supported by the Attorney General and the Public Defender.

The Juvenile and Domestic Relations Court Services Section is implementing a Statewide juvenile restitution program to serve as an alternative to incarceration or as a condition of probation for approximately 2500 juveniles adjudicated delinquent by the juvenile and domestic relations courts throughout the State. This two-year program is funded by the Office of Juvenile Justice and Delinquency Prevention of the federal Law Enforcement Assistance Administration in the amount of $520,000. Two counties, Camden and Gloucester, were awarded $278,148 to implement a juvenile restitution program which began in those counties in January, 1979. The Administrative Office of the Courts' juvenile restitution program is scheduled to begin in the nineteen other counties in the State during the 1979-80 court term.

Both programs enable juvenile court judges to order juvenile offenders to make monetary payments to victims, perform community services with all or a portion of the juveniles' pay being passed on to victims by the probation departments, or if the juveniles and victims agree, order juveniles to provide services directly to victims. The juvenile restitution programs are designed to provide an alternative to incarceration in some cases, to instill a sense of responsibility and accountability in juvenile offenders ordered into the programs and to enable juvenile offenders who have committed property offenses or offenses against the person to restore victims' losses monetarily or symbolically.

Implementation of the program is the responsibility of restitution coordinators at the vicinage and county level. The coordinators, who are responsible for administering the program amongst the court, probation department and community agencies, are either State employees or probation officers on county payrolls whose salaries and fringe benefits are being reimbursed by the Administrative Office of the Courts. Most of the coordinators attended a two-day training session held August 28 and 29, 1979 by the Administrative Office of the Courts, and designed to assist in implementation and operation of the restitution program.

The following table indicates the status of the restitution program as of August 31, 1979 the end of the 1978-79 court term.

JUVENILE RESTITUTION PROGRAM

RESTITUTION COORDINATORS

VICINAGE	DATE OF APPOINTMENT	STATE/COUNTY EMPLOYEE
Atlantic	September 10, 1979	State Employee
Atlantic County		
Cape May County		
Cumberland County		
Salem County		
Bergen	August 20, 1979	State Employee
Burlington		
Burlington County	September 20, 1979	County Employee
Ocean County		
Camden		
Camden County	January 2, 1979	County Employee

* Data differs from cases pending August 31, 1978 as reported in 1977-78, because of recounts by the counties resulting from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

** As reported in the 1977-78 Annual Report. Subsequent recounts amounted to -210 cases pending as of 8/31/78.

*By statute, a municipal court judge must be an attorney at law of this State or have held the office of municipal court magistrate, recorder, police judge or justice of the peace on January 1, 1952. While all of these offices, except that of municipal court judge, have been abolished, non-attorneys continue to serve as judges of the municipal courts because they held one of the specified offices on January 1, 1952.

(1) Includes proceedings in the County District Courts of Bergen, Hudson, Ocean, Sussex and Warren Counties which exercised concurrent jurisdiction during the court year. Also includes proceedings in the Palisades Interstate Park Police Court in Bergen County.

(2) Because "Hours on Bench" are reported monthly to the nearest hour the yearly total in some courts may be "0" if no full hours were reported for any month.

(3) If the offense charged may constitute a minor neighborhood or domestic dispute, a notice may issue to the person or persons charged, requesting their appearance before the court, or such person designated by the court and approved by the Assignment Judge, in order to determine whether or not a complaint should issue or other appropriate action be taken. Rule 7:3-2. Not applicable in traffic cases.

(4) Rule 7:2: The provisions of R. 3:2 (complaint), R. 3:3 (Warrant or summons upon complaint) and R. 3:4-1, 3:4-2, 3:4-3 and 3:4-5 (proceedings before the committing judge) are applicable to the municipal and county district courts in respect of indictable offenses; the provisions of R. 3:4-4 are applicable to such courts in proceedings under the Uniform Fresh Pursuit Law.

(5) N.J.S.A. 2A:8-22 confers jurisdiction on the municipal courts to try certain specific cases involving crimes occurring within their territorial jurisdiction provided defendant first executes in writing a waiver of indictment and trial by jury.

(6) Dismissals under Rule 3:28 (Pretrial Intervention Programs) and N.J.S.A. 24:21-27(b) (Dismissals after conditional discharges - controlled dangerous substance abuse only).

(7) Defendants placed on probation in accordance with Rule 3:21-7. Does not include suspended dispositions or conditional discharges under N.J.S.A. 24:21-27 or Pretrial Intervention Programs, R. 3:28.

(8) Not including those revoked or suspended by the Director of the N. J. Division of Motor Vehicles, but does include revocations and suspensions in disorderly persons and other violations as provided by statutes.

(9) Does not include conditional discharges in cases involving controlled dangerous substance abuse, (N.J.S.A. 24:21-27(b)) or Pretrial Intervention Programs, R. 3:28. The count here is the number of sentences suspended, irrespective of the number of persons, complaints or charges involved.

Source: Monthly Reports from the Municipal Courts and the Clerks of the County District Courts exercising concurrent jurisdiction and the Palisades Interstate Park Police Court in Bergen County.

MUNICIPAL COURT DEFENDANTS STATUS REPORT

The column headings of the tables that follow are described below:

(The tables refer to defendants whose municipal court trials were completed this year - Status at commencement of trial. Columns 5 et seq deal with Municipal Court trials whereas columns 1 & 3 also include indictable offenses.)

"COMPLAINT/SUMMONSES FILED AND COMPLAINT/WARRANTS FILED -- INDICTABLE OFFENSES AND NON-INDICTABLE OFFENSES."

A summons may issue in lieu of a warrant if the person taking the complaint has reason to believe that the defendant will appear. R. 7:3-1(d). It is the policy of the Supreme Court that wherever appropriate a complaint/summons shall issue instead of a complaint/warrant.

"BAIL OR JAIL STATUS OF DEFENDANTS AT BEGINNING OF TRIAL."

The unit of the count is the defendant.

In the section "Released on Own Recognizance" the reporting instructions specify that it should include only those defendants who were actually arrested, held, and then released after the prescribed ROR procedures. (Includes a recognizance form signed and executed before the person authorized to take bail). It is not intended to include defendants on whom summonses were served (traffic or other) without arrest. It should be noted, however, that for some courts it is apparent that the reporting instructions may not have been followed in all instances.

"NUMBER OF DEFENDANTS ON NON-INDICTABLE OFFENSES REPRESENTED BY ASSIGNED COUNSEL OR REFERRED TO THE PUBLIC DEFENDER" and "NUMBER OF DEFENDANTS ON INDICTABLE OFFENSES REFERRED TO THE PUBLIC DEFENDER."

The number of assignments or referrals is reported, whether or not the defendant had been so represented. The data reported herein is on trials that had been completed during the court year.

COMMENTARY

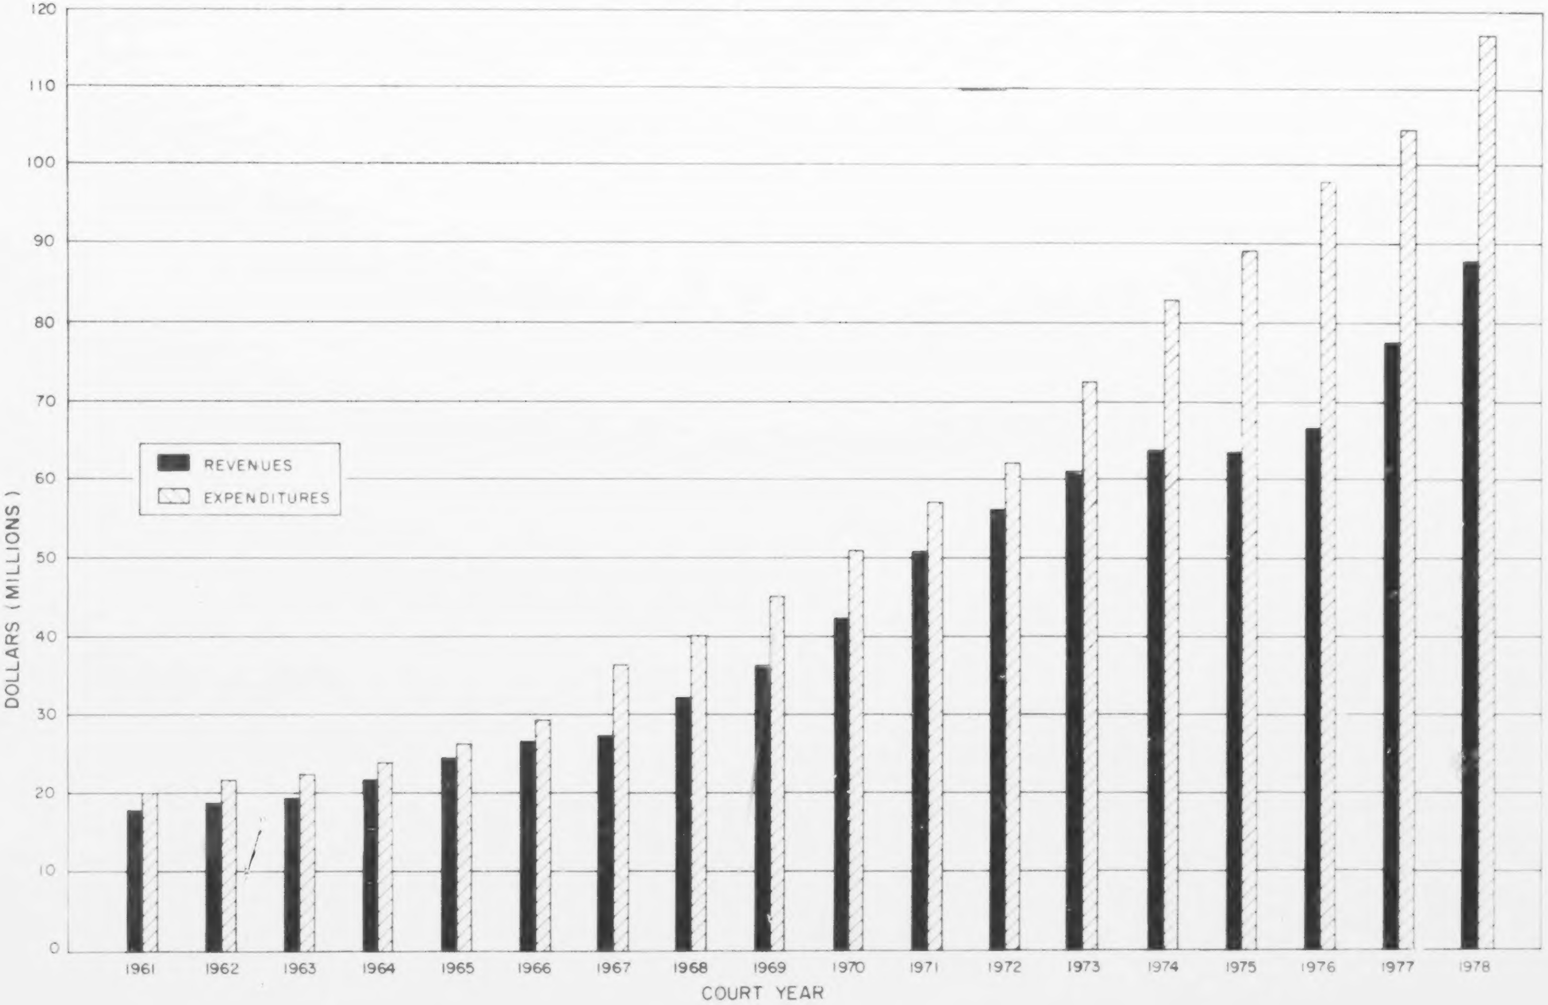
COST OF OPERATING THE COURTS

The information reported here has been extracted from audit reports on file with the Division of Local Government Services and from reports to the Administrative Office of the Courts. It should be noted that the data may not be altogether accurate, primarily because of lack of uniformity in State, County and Municipal accounting procedures and also because generally, no allocation is made to using departments for overhead and capital costs.

As shown by Fiscal Chart A, there has been a steady increase since 1961 (the first year for which comparable data was collected and reported) in both expenditures and revenues for the courts at all levels. Total expenditures for the courts by the State, counties and municipalities have increased 485% from $19,954,301 in 1961 to $116,805,973 in 1978. Revenues have increased 400% from $17,546,851 in 1961 to $87,708,776 in 1978. Of the total expenditures of $116,805,973 for 1978, 22.6% was borne by the State, 63.1% by the counties, and 14.3% by the municipalities.

FISCAL CHART A

COST OF OPERATING THE COURTS
STATE, COUNTY AND MUNICIPAL
REVENUES COMPARED WITH EXPENDITURES



NOTE: STATE DATA IS FOR THE FISCAL YEAR COMMENCING JULY 1 OF THE YEAR INDICATED.
COUNTY AND MUNICIPAL DATA IS FOR THE CALENDAR YEAR INDICATED, EXCEPT THAT MUNICIPAL DATA ON REVENUES IS FOR THE COURT YEAR ENDING AUGUST 31, 1979.

PROBATION SERVICES

Introduction

The 1978-1979 annual report on probation services presents thirty pages of statistical tables preceded by narrative summaries that highlight noteworthy findings and make occasional time-trend (longitudinal) comparisons. The tables are ordered according to probation service functions in six alphabetic series, A through F. Series A reports three tables that describe probation personnel, series B entails six tables which outline the work volume of probation services, and series C is comprised of three tables that delineate funding sources, appropriations and collection activities. The D series sets forth eleven tables pertaining to pretrial services. Series E gives an account in four tables of probation training programs. The last series, tables F-1 through F-3, registers the work volume and financial aspect of the Title IV-D program.

Effective December 7, 1978 New Jersey amended the state constitution merging the County Courts into the Superior Court. The tables included in this section reporting data on County Court activities have all been identified as Superior Court.

PERSONNEL

The total number of probation employees operating at the county level in the 1978-1979 court year grew by almost 5% over the former court year. On a longitudinal perspective of five years (since court year 1974-1975), the number of personnel has increased by 37.1%.

All ranks grew over last court year with one exception: There was one less Chief Probation Officer this year than last as a combined result of a retirement and departmental reorganization. Two levels grew at rates of over 10%. The number of Senior Investigators increased by 39% while the complement of Assistant Chief Probation Officers grew by 13% over the last court year. The remaining job grades remained relatively constant or grew at less impressive rates.

The percentage of change in number of personnel over the court year varied considerably from county to county. On one end of the spectrum Cape May County suffered a net loss of 16.7%. On the other end, Burlington County enjoyed a net staff increase of 31.8%. The table below shows the ranges of change in county-level probation personnel since the court year 1977-1978.

Change in County-level Personnel
Over 1977-1978 Court Year

Percent Change	Number of Counties
-20 to 0	6
0.1 to 5	3
5.1 to 10	5
10.1 to 32	7
	21

The percentage of females serving in permanent professional positions rose slightly over the former court year. While 28.0% of the permanent professional positions were filled by females in court year 1977-1978, the 1978-1979 court year ended with 28.8% of the permanent professional positions being filled by women. While that percentage of growth is quite small, it is consistent with a trend that has been noted since these statistics were first collected in court year 1972-1973. Females at that time constituted 22% of the permanent professional work force. Each year since that time the average of the annual rates of increase of the percentage of female professional personnel has been 1.2%, while the average annual increase in the total number of females in permanent professional positions has been 12.1%.

WORK VOLUME

Investigations

1. Criminal and Juvenile Investigations. Some 18,637 adult presentence investigations were conducted for the County, Superior and Municipal Courts during court year 1978-1979. This is the first year in the last three in which more adult presentence investigations were made than in the former court year. While last year's decrease amounted to 14.2%, this year's increase came to 3.0%. The increase applies to both presentence formats. Usage of the long form, which occurs more regularly in the Superior Courts, increased at a rate of 2.0% while

employment of the short form, used more regularly for less serious offenders and/or cases in the Municipal Courts, increased 9.0%.

By contrast, the number of predisposition reports for juveniles continues to grow. 9.4% more predisposition reports were completed this court year over last court year. Compared to the 1974-1975 statistic, the number of predisposition reports has increased by 15.0% while the number of presentence investigations has depreciated by 0.8%.

2. Chancery Custody Investigations. The number of chancery custody investigations increased by 3.5%. This is a slight increase over the 1.5% increase of the former court year. Still, over a five year period the number of chancery custody investigations has grown by 24.8%, the highest growth rate for all investigation types over that period of time.

3. Domestic Relations Investigations. Investigations in Domestic Relations suffered the largest decrease of all investigation types during this court year. The reduction amounted to approximately one third (37.3%) of the Domestic Relations investigations completed. This is the second consecutive year a net loss has occurred in this area. It amounts to a decrease of 58% from the number of investigations conducted in court year 1974-1975. Development of domestic relations intake services throughout the state

may be in large part responsible for this decrease.

4. Bail/ROR Investigations. The number of investigations in this area declined as well. A total of 18,972 investigations, a reduction of 5.9%, was conducted this court year. When this year's figures are compared to those of five years ago, an increase of 5.4% in Bail/ROR investigations is still discovered.

5. Grand Jury Investigations. Only five of twenty-one counties perform Grand Jury investigations. Since five counties conducted fewer investigations this year, a total statewide decrease of 28.7% resulted. Essex and Passaic Counties conducted 2,908 Grand Jury investigations this year or 91% of the total.

6. Interstate Compact Investigations. These investigations are conducted upon petition by other states. 443 were conducted this year, which is 15.5% *fewer* than during court year 1977-1978. Percentages of change for these investigations vary widely from year to year and no trends seem to have emerged. There has been a decrease of 9.8% in the number of Interstate Compact investigations conducted when compared to court year 1974-1975.

7. Other Investigations. This category includes all split investigations (county, out-of-county, and out-of-state) as well as investigations relating to underage marriage, consent or informal adjustment, financial, clemency, juvenile detention, public defender applications, and

additional investigations that do not clearly apply to any other category. In addition work release investigations have been incorporated in this category because they remain few in number. 7,480 of these investigation types were conducted resulting in a net decline of 23.8% over the prior court year. Furthermore, there has been a decrease of 41.9% in the number of unclassified investigations since court year 1974-1975.

The total number of persons with probation or county parole (under N.J.S.A. 30:4-123.35) terms at the close of the court year was 43,686, a modest increase of 1.0% over last year's figure of 43,264 probationers. The number of adults actually decreased from 32,417 to 32,303 resulting in a -.4% change. Meanwhile, the number of juveniles on probation grew at the rate of 4.9% to a total of 11,383.

A closer look at changes over the previous court year in adult and juvenile caseloads by county yields interesting variations. In the area of adult supervision, caseloads increased in 13 counties and decreased in 8. The largest increase occurred in Salem County (up 16.1%) while the county with the largest percentage loss was Mercer (down 50.4%). The range of percent of gain or loss for all other counties stretched from -27.1% to +13.2%. Finally, the average percentage of change for the counties was -2.7%.

Juvenile caseloads followed some of the patterns set by adult caseloads, but varied remarkably in other respects. Caseload increases in the juvenile area are comparable in that they increased in 11 counties and decreased in 10. The marked contrast comes in the much less homogeneous distribution of changes from county to county. Burlington County's juvenile caseload expanded by 29.9%, Hudson County's increased by 27.9%, and Passaic's grew by 22.6%. On the negative side of the ledger, Gloucester County's juvenile caseload decreased by 37.8% while Union County's caseload was reduced by 22.8%. Finally, the average percentage of growth per county was .9%, somewhat higher than the average rate of -2.7% for adults.

5 Year Comparison of Adults
Under Probation Supervision*

% Change	County	% Change	County
116.1	Burlington	7.1	Monmouth
112.5	Salem	6.7	Union
40.4	Passaic	4.2	Cumberland
36.1	Ocean	3.5	Somerset
25.9	Hudson		
20.7	Essex	- 3.2	Bergen
18.1	Morris	-11.4	Cape May
14.8	Sussex	-14.0	Camden
13.6	Atlantic	-16.7	Hunterdon
10.3	Gloucester	-37.5	Warren
9.5	Middlesex	-43.6	Mercer

---

* The statistics for this and the subsequent table were computed as follows: The total number of persons remaining under probation supervision at the end of court year 1974-1975 was compared with the total number of persons remaining under probation supervision at the end of court year 1978-1979. Then the percentage of change was computed.

While adult cases increased by 14.4% from court year 1974-1975 to 1978-1979, the number of juvenile cases increased by 9.4%. Thirteen counties experienced increases and the other eight decreased. Two counties grew remarkably compared to all other counties. Sussex County's juvenile cases swelled by 317.5% while Warren County's juvenile probationers increased by 46.7%. The county with the largest decrease was Monmouth, with a loss of 43.8%. The next table sets forth the changes for all counties over the five years.

5 Year Comparison of Juveniles
Under Probation Supervision

% Change	County	% Change	County
317.5	Sussex	5.4	Mercer
46.7	Warren	1.9	Cape May
44.1	Morris		
24.1	Atlantic	-4.2	Cumberland
20.3	Essex	-16.1	Hunterdon
20.2	Burlington	-16.2	Ocean
20.2	Salem	-20.6	Camden
14.0	Bergen	-30.7	Middlesex
12.6	Hudson	-34.8	Gloucester
10.9	Passaic	-41.0	Union
7.5	Somerset	-43.8	Monmouth

Transfers and Terminations

The total number of probationers (adults and juveniles) who transferred across county or state jurisdictions for supervision during the 1978-1979 court year was 3,834. This volume of transfer cases is slightly lower (-3.3%) than that of the preceding court year.

Some 25,534 persons were discharged from probation during the court year, an increase of 3.1% over court year 1977-1978. 73.5% of this year's terminations resulted from normal completion of probation terms. The remaining 26.5% were discharged as a result of a violation of probation conditions, a new offense, death, absconding and/or other reasons.

Supervised Collections

Table B-6 presents a statistical overview of the work volume pertaining to persons under court orders for payment of support, alimony, court costs, fines, and/ or restitutions. There were 127,114 persons under such court orders at the close of the court year, an increase of 9.1% over the former court year. When this figure is compared to the cases of five years before, one finds an expansion of supervised collection cases of 47.4%.

APPROPRIATIONS

The counties appropriated a grand total of $33,078,897 for probation services in calendar year 1979. This sum constitutes an increase over 1978 appropriations of 7.3%. When it is compared to 1975 appropriations, that sum represents an increment of 54.7%.

The appropriations by the 21 counties for probation services ranged widely. Atlantic County increased its appropriations by 31.1% while Hudson County reduced its appropriations by 25%. The average county appropriation increased by 7.5%.

County appropriations must be viewed in the context of all funding sources together. When SLEPA and CETA resources are combined with county appropriations for 1979 a statewide increase of 6.7% is discovered in comparison to the total 1978 appropriations and resources. Meanwhile, all county probation departments together reported an average increase of 8.2% in total appropriations. The range for total appropriations was from a decrease of 24.2% in Hudson County to an increase of 29.3% in Atlantic County.

The appropriations statistics for SLEPA-funded projects are again reported independently of all other appropriations. SLEPA approved grants in 16 counties for a total of $874,632. 5 counties received no SLEPA grants during this court year. Camden County received a direct grant of $135,008 from the Law Enforcement Assistance Administration to develop a juvenile restitution program. In addition, Mercer County received $5,000 from the Department of Human Services to provide emergency services to indigent juveniles.

The Comprehensive Employment Training Act (CETA) funding provided a total of $1,301,976 for 16 participating county probation departments. This funding represents a 7.7% increase over the $1,209,289 allocated during 1978.

SUPERVISED COLLECTIONS

The sum of monies collected and disbursed by the county probation departments increased by 13.6% over the former court year. This year's collections amounted to $110,449,664.13. Comparing that amount with the figure for court year 1974-1975, we note that over five years the total of supervised collections has increased by 52.2%. For the first time support and alimony collections passed the $100 million mark.

All counties have grown in their collection activities over the past five years but the rates of growth vary widely. At one end of the spectrum Morris County grew by 12.6%. At the other end, fourteen counties grew by over 50%, Salem experiencing the largest percentage of growth with 105.9%. Three counties follow not far behind Salem County: Burlington, up 103.8%; Cumberland, up 92.0%; and Cape May up 80.1%.

Support and alimony payments account for 96.1% of all collections. These monies, which amounted to $106,124,713.85 in this court year, are ordered by the courts to be collected and disbursed by the county probation departments. These monies have been disbursed to families or welfare agencies, resulting in major social benefits for many New Jersey families. In many instances this constitutes no small savings to the taxpayer by way of deferred public support.

During this court year fines of $2,635,778.64 were collected. Since this category changed from the one utilized last year no comparisons over time can be made.

The largest percentage of growth in the collections area has come with restitution. During this court year the amount of restitution increased by 44.4% to $1,548,854.04. When this year's restitution figures are compared with those of five years ago, one finds a tremendous increase of 227.7%. This remarkable growth exhibits another way in which the courts, via probation, work to promote the welfare of New Jersey's citizenry: more and more is being channeled to the victims of crimes.

SPECIALIZED PROBATION PROJECTS

Probation projects funded by the State Law Enforcement Planning Agency and the Law Enforcement Assistance Administration (LEAA) for all or part of the 1978-1979 court year are identified on Table C-3. The total expenditure on these special programs amounted to $1,252,148, a 6.3% increase over the prior court year and a 19.3% decrease over court year 1974-1975. This increase is largely due to the $150,009 the Camden County Probation Department received from LEAA to develop and administer a juvenile restitution project. Most of the federal dollars have been invested in attempts to render certain services on a uniform, statewide basis. These services include Pretrial Intervention, Intake, and Volunteers. The remaining projects have been designed and implemented by various counties out of their own creative responses to unique needs and opportunities.

PRETRIAL SERVICES UNIT

Introduction

The Pretrial Services Unit of the Administrative Office of the Courts has continued to work toward the development of efficient and just methods of processing defendants at the pretrial stage of the criminal process. Continued emphasis has been placed on coordinating pretrial adjudicatory functions and improving service delivery throughout the court system by the Unit's four main components: Municipal Court Family and Neighborhood Dispute, Pretrial Release, Pretrial Intervention and Volunteers in Probation Programs.

The third annual Pretrial Services Conference, held in June, 1979, typifies the Unit's approach. Representatives of the judiciary, release and diversion programs from throughout the state attended the two day conference. Several of the courses and seminars that were offered focused on the implementation of the New Jersey Code of Criminal Justice as well as on specialized techniques for line staff assigned to pretrial functions. The conference also provided an opportunity for the exchange of ideas and the formulation of recommendations to improve upon existing pretrial procedures.

FAMILY AND NEIGHBORHOOD DISPUTE PROGRAMS

The Family and Neighborhood Dispute Programs provide the municipal courts with an alternative method of resolving complaints. The units employ conciliation and mediation techniques in an effort to resolve minor complaints and disputes before formal initiation of the criminal process. Programs operated during the court year in the municipal courts of Camden, East Orange, Jersey City, Newark, Orange, Trenton and Willingboro. In addition, county-wide units have been inaugurated through the Probation Departments in Bergen and Middlesex Counties.

Over the past year emphasis has been placed on reviewing program status and development of a Family and Neighborhood Program Model for adoption throughout the several county probation departments. Conciliation and mediation training was also begun through a program being offered by the Office of Dispute Settlement of the New Jersey Department of the Public Advocate.

PRETRIAL RELEASE

During the past court year New Jersey continued to recognize the importance of developing and maintaining an efficient system of pretrial release. A review of the survey data collected during the 1976-77 court year indicated that pretrial release practices, including types and methods of release, vary (see Table D-9). As a result, particular emphasis was placed on two areas: program development and dissemination of uniform information.

Advances were made in the programatic area with the establishment of pretrial release units in Bergen and

Morris counties. This increased the number of identifiable programs from twelve (12) to fourteen (14) (see Table D-10). While both programs are limited in size, and therefore in the services they provide, they are able to perform one of the most important functions of a pretrial release program - that of regularly providing the court with accurate information on which the release decision can be based. Additional services include monitoring of selected defendants and assisting with conditional releases.

In a further effort to minimize the differences in pretrial release practices and procedures the dissemination of uniform bail information was expanded. In addition to regular communications with Assignment Judges, Trial Court Administrators, and Chief Probation Officers, pertinent materials were also distributed to Designated Bail Judges and Pretrial Release Program Directors. Periodic meetings of Program Directors were also held. This system of communication established a mechanism for the distribution of recent court decisions, court rules, and procedural changes as well as providing a forum for an exchange of information.

During the court year work was also begun on the development of minimum pretrial release standards for New Jersey. These standards, which serve as guidelines for New Jersey pretrial release programs, will reflect the efforts of the pretrial release program directors as well as national standards. It is expected that they will be completed in early 1980.

Several other areas were also focused on during the court year. Position papers on pretrial issues were prepared, information on pretrial programs in New Jersey and in other jurisdictions continued to be catalogued, and a uniform statistical report was pre-tested in anticipation of its implementation. Field visits to county programs continued on a regular basis and, where appropriate, ways of improving operations were suggested. Additionally, a set of inter-county supervision procedures, allowing defendants arrested in a county other than their own to be supervised by the release program in their county, was devised.

Based on past experience the goals for 1980-81 court year include: establishment of pretrial release programs in two additional counties, and the implementation of the statistical report statewide.

PRETRIAL INTERVENTION

Pretrial Intervention, as a criminal justice reform, is intended to remove selected defendants from the traditional methods of prosecution and simultaneously reduce the congestion and delay existing in criminal courts. Such a program focuses on those individuals arrested and charged who, with the assistance of short-term rehabilitative skills and services, appear motivated and able to remain uninvolved in further criminal activities.

During the 1978-79 court year New Jersey achieved full statewide implementation of PTI through the approval and establishment of the Warren County Program. Additionally, support for the concept of diversion was further evidenced by the inclusion of the program in the New Jersey Code of Criminal Justice. In adopting the PTI program with substantially the same goals as had been fostered by the New Jersey Supreme Court, the Legislature demonstrated the State's strong commitment and determination to "effectuate a Statewide program of Pretrial Intervention."

In recognition of the goals and objectives set forth by the Supreme Court and Legislature all PTI program proposals, grant applications, procedural changes, etc. are carefully screened to ensure the maintenance of a consistent and uniform approach to PTI throughout the state. Additionally, periodic meetings of program directors are held to ensure the dissemination of uniform information.

The Pretrial Intervention Registry of the Administrative Office of the Courts, as authorized under the January 1979 amendment to R. 3:28, became operational on January 10, 1979. The Registry has been developed in two phases. Phase I is designed to list all defendants who have prior association with a PTI Program, so that upon a reapplication proper steps can be taken to bar subsequent enrollments. The Registry lists all defendants who have been associated with PTI, since the Supreme Court's program began in 1971. Phase II, which will become operational during the 1979-80 court year will contain defendant participation and dispositional information that can be used for planning and management function, as well as overall program evaluation.

The statistics available on PTI programs indicate some changes in each area regularly measured. Specifically, the various categories reflect the following changes during the 1978-79 court year:

- Applications in 1978-79 decreased 7.3% 15,703 over 1977-78 (16,940).
- Enrollments grew by 6,620 in 1978-79, an increase of 22.1 over 1977-78 (5,421).
- Rejections decreased by 6.7% (10,768) over 1977-78 (11,544).
- The greatest impact of PTI lies with cases that are successfully dismissed-successful dismissals rose 22.7% (5,848) over 1977-78 (4,766). These figures demonstrated a 92% rate of success among all enrollments with only 506 cases being terminated unsatisfactorily and returned for prosecution.
- The number of applications pending as of

August 31, 1979 was 2,449. This represents a significant reduction of 41.4% of the cases pending in 1977-78. Such a decrease is indicative of how well PTI functions with other components of the criminal justice system and works towards the timely processing of cases.

VOLUNTEERS IN PROBATION

The 1978-79 court year marked the development of the nineteenth Volunteers in Probation Program, implemented in Hunterdon County in September, 1978. Only Sussex and Warren counties remain without volunteer programs. The Hunterdon program was funded through a State Law Enforcement Planning Agency (SLEPA) grant which also supported the juvenile intake services of Hunterdon County. In September, 1979, the Salem County VIP program will be expanded through SLEPA funding of a combined volunteer juvenile intake service.

The decision to combine volunteer and juvenile intake programs for single grant funding from SLEPA was made because the two counties are small and do not need to attract a large number of volunteers. Those volunteers who do participate in these programs will be recruited and trained for one-to-one supervision or for membership on the Juvenile Conference Committees. Combining the programs within one

SLEPA grant decreases the paperwork and administration time needed for effective follow through of the grant.

In nine of the nineteen VIP programs there have been changes in the person directing the program during the 1978-79 court year. In each of the these programs, the change in directors caused delays in recruitment and training of new volunteers, and in general, in supervision of the programs.

Traditionally, when there is a change in directors, there is a corresponding change in program emphasis and design. Delays are necessary as new directors learn to fulfill their new roles as public relations persons and trainers. As a result of the personnel changes in the programs, volunteer assignments and training decreased over the previous court year (see Table D-1). Volunteer assignments decreased 15.5% from 3,351 one year ago to 2,830 this court year. In addition, the total number of volunteer assignments made monthly decreased 6% to 1,525. The actual number of supervised volunteers remained almost the same during the court year.

Although volunteer assignments decreased, more persons remained on supervision as of August 31, 1979, than as of August 31, 1978. Probation Table D-2 shows a breakdown of discharges of VIP Program clientele, which includes probationers, Juvenile Conference Committee referrals, and agency referrals. Of the discharges, there were increases of 20% in violations of probation and 38.9% in interstate and county transfers; while discharges for new offenses and other discharges decreased by 40% and 45.9% respectively. This shows a trend toward more accountability within the VIP Programs for the supervision of the clients and less transfer of probationers back to regular probation supervision even though probationers' problems increase for the volunteers.

There was a decrease of 39.2% in the number of volunteers completing pre-service training. This decrease can be attributed to the recruitment of fewer volunteers as well as the turnover in volunteer directors. More agencies are vying for the same volunteers and the gas shortage and location of some of the programs had to affect recruitment. In addition, there are a growing number of diversionary programs to which the usual VIP client can be referred. In the future the VIP programs must consider decentralized training program locations making them more accessible to the community and locating the office of the VIP program in easily reachable locations within the counties.

Probation Table D-1 also shows an increase of 34.8% in the number of volunteers completing in-service training although the average hours of in-service training attended by each volunteer decreased. In-service training includes sessions at which volunteers discuss various problems and experiences and/or explore counseling techniques and problem areas such as alcoholism, truancy, or sexuality. A highlight of inservice training for the VIP was the State Institute held in October, 1978. The Institute gave the VIP's the opportunity to sharpen their supervisory and counseling skills and gave recognition to the volunteers for their services to the criminal justice system.

An unprecedented learning experience for the volunteer program staff was made available when the 8th National Forum on Volunteers in Criminal Justice was held in Cherry Hill, New Jersey, October 15-18, 1978. The National Forum provided a valuable opportunity for staff to develop skills and expand knowledge in the entire field of criminal justice. Several staff members of the Administrative Office of the Courts participated as work shop leaders and the Coordinator, Volunteer Services, served as Arrangements Chairperson for the National Forum which attracted 800 volunteers and professionals.

Probation Table D-3 shows a breakdown of types of persons supervised within the VIP program. There was a 29.3% decrease in the number of Juveniles in Need of Supervision (JINS) added for supervision in the 1978-79 court year. This is due in large part to the many diversionary programs which are being made available to the courts for JINS supervision; and in the number of adults on probation assigned during the 1978-79 court year; and a 10.5% increase in "others" being supervised. This increase is due in part to an increase in the number of programs developing adult components and an increase in the number of referrals from outside probation, i.e., juvenile intake, PTI, etc., being accepted by the programs.

Additionally, the Volunteer Services Unit provided technical assistance, monitored the nineteen county VIP programs, and provided consultation services and assistance in developing new volunteer programs. Included in the plans for the 1979-80 court year are the 1979 Regional Volunteer Institutes and a Volunteer Managers Course for volunteer program directors and staff. In addition, further review of innovative uses of volunteers for service to probation and the courts will continue.

PROBATION TRAINING

Probation Training provides a comprehensive in-service training program to the twenty-one county probation departments. During the court year ending August 31, 1979, nearly 24,000 staff hours of training were completed in a variety of courses ranging from basic orientation for the new staff members to more specialized courses in counseling, crisis intervention and management techniques.

Orientation courses for both probation officers and investigators were completed by 152 staff at the state level and by 125 at the county level for a total of 277 staff.

The Skills and Methods in Probation Practice Course, mandated by the Supreme Court, received greater emphasis this year and was offered five times by Probation Training and an additional sixth offering was sponsored by Middlesex County. As a result of this increased effort, 147 staff completed this course.

Supervisor's Training was completed by 42 staff in two sections, one for newly appointed supervisors and one for those with more experience. Probation Training has received a $10,000 grant from the National Institute of Corrections to provide follow-up training, assistance and evaluation to those supervisors trained in 1978. This project will develop a revised training design for this course, keeping it current with the staff needs and reflecting the evaluation research performed.

Probation Training continued activities under its grant, "Improved Training for Juvenile Court Personnel," which included the support of group and individual counseling courses and activities. Thirty-eight staff were trained in group counseling techniques, and the Guided Group Coordinator conducted in excess of 325 staff hours of group counseling follow-up activities. Thirty staff completed the Counseling Techniques for Probation Officers Course.

The most significant activity completed by Probation Training in the court year just past was the training for the new Code of Criminal Justice. The entire probation officer staff in the state, some 1,200 individuals, were trained in full day workshops over a six week period last spring. It was a massive task, completed with no reduction in regularly scheduled training activities. The assistance and support of the Office of the Attorney General and of the county probation departments' administrative and training staff was central to the timely completion of this task.

In addition to direct course offerings, Probation Training made it possible for probation staff to attend courses at the Training and Education Center of the New Jersey Department of Health, Division of Alcohol, Narcotic and Drug Abuse. Seventy staff enrolled in a variety of courses offered at the center. Seventeen staff enrolled in the Behavior Modification Courses offered at the Department of Corrections.

Under the sponsorship of Probation Training, six county level training staff completed the Basic Training for Trainers course at Rutgers Graduate School of Social Work. This is part of the continuing effort to develop high caliber training staff at the county level to complement the state staff. Probation Training made available to county staff scholarships to the Rutgers Summer School of Alcohol Studies, and ten staff completed the course of study.

The Training Advisory Committee has continued to provide significant input from the field for planning at Probation Training. Composed of representatives from all departments, the committee serves as a clearinghouse for training information, a sounding board for, as well as a source of new ideas and programs and as an advisory body to the staff of Probation Training.

Probation Training has continued to support the county level training endeavors, supplying materials and manpower to whatever extent feasible. This past court year saw a decrease in the number of hours completed at the county level, which may reflect continued scarce resources.

The decrease noted was compensated for by the growth of the Administrative Office of the Courts' sponsored program. The total of 23,673 hours represents an increase of better than 60% over the previous year. Excluding the Code of Criminal Justice training, which will not be a regular training event, the total number of hours represents a 21% increase over the previous court year.

Probation Training has continued to meet its goal of helping the staff to attain the knowledge, skills and attitudes required for exemplary job performance, and of involving all levels of staff in some type of regular training activity. During the year, significant progress was made in the area of increased compliance with mandated course requirements, increased frequency of course offerings and the development of new programs to address specific needs. One example of this is the development of a research project on the Presentence Investigation Report, which was recently funded by the Law Enforcement Assistance Administration as part of a national program. This project will include a training component for the probation staff in the areas of presentence investigation and reports to the court.

The staff of Probation Training has developed and cultivated relationships with the significant members of the criminal justice training, service and consulting community in New Jersey as well as with the major funding sources in Washington, D. C. These symbiotic relationships will help to increase the quality, scope and productivity of Probation Training's activities in the coming court year.

CHILD SUPPORT ENFORCEMENT

The number of child support enforcement cases not receiving Aid to Families with Dependent Children (AFDC) increased 4.3% over last court year to 61,440. There was considerable variation in the changes on a county-by-county basis. The two counties experiencing the largest decreases were Hunterdon and Hudson Counties with decreases of 29.6% and 24.3% respectively. Altogether, ten counties experienced decreases and the other eleven increases. The largest increase occurred in Salem County at 21.9% closely followed by Burlington County (+21.1%).

By contrast the number of cases receiving AFDC assistance increased statewide by 12.3%. Only two counties experienced decreases (Morris at -5.9% and Cape May at -.5%) while everyone else's caseload size increased. Six counties grew by from 1 to 10%, nine counties grew by from 10.1% to 20% and the remaining counties increased by more than 20.1%: Middlesex with the greatest increase at +27.1%; followed closely by Somerset at +26.7%; then Passaic at +23.7% and Mercer at 22.7%.

The interesting thing about expenditures and reimbursements in this area is that while expenditures increased statewide at 12.2% the reimbursement has dropped by 14.2%. This marked decrease resulted almost entirely from the failure of Congress to extend its commitment to reimburse the states for the costs incurred in handling non-AFDC cases; this commitment expired under the existing law on September 30, 1978. A bill which would restore such reimbursement retroactively to that date is currently awaiting final Congressional action.

When we look at expenditures alone, all counties but two (Hunterdon down 16.8% and Mercer down 4.4%) incurred larger expenditures over the prior court year. Eight counties increased at between 1 and 10% and six counties at between 10.1 and 20%. Meanwhile, Camden; Monmouth and Burlington Counties grew at rates of 21.1%, 23.0% and 25.4% respectively. Finally, the two counties with the largest increase in expenditures were Union (at 45.9%) and Gloucester (at 32.1%) Counties.

Only two counties experienced increases in the amount of reimbursement over last court year. Union grew at 4.9% and Camden at 6.8%. Three counties lost from 0.1% to 10.0%, seven at between 10.1% and 20% and three counties at between 20.1% and 30%. The remaining counties suffered losses as follows, in descending order from greatest loss: Mercer, -34.6%; Bergen, -34.5%; Hunterdon and Somerset, -33.6%; Morris, -32.8%; and Sussex, -31.6%. Total federal reimbursement under Title IV-D of the Social Security Act (including the twenty-one county probation departments and the Administrative Office of the Courts) amounted to $5,603,592.51, a 14.2% decrease from the last court year.

COLLECTIVE BARGAINING IN PROBATION

Pursuant to the directive of the Supreme Court, the Assistant Director for Probation and the Chief of the Probation Administrative Management System (PAMS) have conducted labor negotiations with probation bargaining units on behalf of the Superior Court Judges since January 1976. Their bargaining activities include:

(1) The development of policy recommendations;
(2) On-site negotiations;
(3) Contract demand analyses;
(4) Representation of the judiciary in Public Employment Relations Commission meetings and hearings, e.g., mediation, fact-finding, unit representation, and unfair labor practice hearings;
(5) Contract drafting;
(6) Representation of the judiciary at Freeholder meetings; and,
(7) Preparation of annual bargaining analysis reports.

By August 31, 1979, there were 26 distinct probation officer employee bargaining units. This constitutes an increase in the total number of such units by one over the prior court year as a result of the development of one supervision bargaining unit.

The collective bargaining workload during the 1978-1979 court year resulted in the negotiation of 23 separate contracts in 18 counties.

On-going research on the impact of this centralized bargaining structure has shown that probation working conditions in the counties are becoming more uniform. A further result has been the reduction in inter-county disparities of salary ranges and related economic benefits.

PROBATION TABLE A-1

PROBATION OFFICER PERSONNEL AND SALARY RANGES

AS OF AUGUST 31, 1979

* Statistics on county administered probation training programs are collected on a monthly basis: therefore a staff member participating in more than one program or in a program lasting more than one month would be counted once for each month and each training program. As a result, the number of hours of training is cumulative but the number of persons trained is not.

** In calculating the monthly average number of persons involved in training, fractions are rounded to the next highest number to reflect whole persons. In calculating the monthly average number of hours, fractions are rounded to the nearest whole number.

* Statistics on probation training are recorded on a monthly basis; therefore a staff member participating in more than one program or in a program lasting more than one month would be counted once for each month and each training program. As a result, the number of hours of training is cumulative but the number of persons trained is not.

** In calculating the monthly average number of persons involved in training, fractions are rounded to the next highest number to reflect whole persons. In calculating the monthly average number of hours, fractions are rounded to the nearest whole number.

*** Includes courtesy training of officers from the Bureau of Parole and staff of the Administrative Office of the Courts.
